

CONNECTED CONTROLS Quick Start Guide

INTERNET GATEWAY

Welcome!

For units equipped with EnerTech EPIC Connected Controls, continue with this Quick Start Guide.

If my unit does not have EPIC Connected Controls equipped, how do I get them? Stay tuned, on location upgrade kits coming soon!

Download the **myUplink** App

1. EnerTech EPIC Connected Controls are powered by the **myUplink** mobile app. To install the **myUplink** app, scan to the QR code below with your mobile device.

Create a **myUplink** account

2. Open the **myUplink** app on your device.
3. Tap **Register**.
4. Fill out the 2 page registration form and finish by tapping **Register**.
5. A confirmation e-mail will be sent to you. Go to your e-mail account and tap the link to complete the account setup. If you do not receive the e-mail, check your junk folder.

Preparing your EPIC Connected Controls for WiFi network connection

6. From the Welcome screen, tap **"Add System"**.
7. Tap **"Scan the QR code"**.
8. Locate and scan the QR code sticker on the front of the system.

Note: Alternatively, there is an additional QR Code on the back of the Internet Gateway.

Connecting your EPIC Connected Controls to your WiFi network

9. After scanning the QR code, you will be prompted to connect the phone directly to the Internet Gateway. Tap "Join".
10. After connecting, follow the on-screen prompts to provide your home internet information.

CONGRATULATIONS!

You have successfully registered and setup your new
Enertech EPIC Connected Controls.
